How to Register for Classes:

Step 1. Select Courses/Registration.

Step 2. Select Schedule Builder.

Step 3. Select preferred Schedules. Review your preferred schedules. If many of the courses are closed or waitlisted, you may want to go build more schedules in Schedule Builder to see if there are other combinations that will work better.
Step 4. Scroll down to Continue to Enroll button and select it.

Step 5. Leave waitlist option as the default setting.

Step 6. Click Enroll.

Step 7. Note: in green, you will see the classes in which you have successfully enrolled. In red you will see any courses you didn’t get.

Step 8. If you did not get a full schedule, go back to Schedule Builder. Build more schedules with different times or courses. It will build around the classes in which you are already enrolled.

Step 9. Review newly built schedules and find one you like. Try enrolling again; see step 4.

Step 10. If you need help, contact your Orientation Leader or Academic Advisor.
