Neuroscience BS
Interdisciplinary major offered by the Department of Biology and the Department of Psychological & Brain Sciences, in cooperation with the Iowa Neuroscience Institute

Required Courses
Note: PSY 1001 Elementary Psychology is not required for the Neuroscience major, but it is strongly recommended that Neuroscience majors take Elementary Psychology in their first semester to satisfy their General Education Social Science requirement. Elementary Psychology may be taken before or with PSY 2701 Intro to Behavioral Neuroscience.

Biology – all of these
BIOL 1411 Foundations of Biology
BIOL 3243 Neurobiology I (fall only)
BIOL 3254 Neurobiology II (spring only)

Chemistry – both of these
CHEM 1110 Principles of Chemistry I
CHEM 1120 Principles of Chemistry II

Biochemistry – Choose one-course or two-course sequence
BIOC 3110 Biochemistry OR
BIOC 3120 Biochem & Molecular Biology I and BIOC 3130 Biochem & Molecular Biology II

Math – Choose one course
MATH 1460 Calculus for Biological Sciences (preferred)
MATH 1380 Calculus and Matrix Algebra for Business
MATH 1550 Engineering Math I
MATH 1850 Calculus I

Physics – Choose one sequence
PHYS 1511 College Physics I and PHYS 1512 College Physics II (preferred)
PHYS 1611 Introductory Physics I and PHYS 1612 Introductory Physics II

Psychology – all of these
PSY 2701 Introduction to Behavioral Neuroscience
PSY 2811 Research Methods and Data Analysis I
PSY 2812 Research Methods and Data Analysis II
PSY 2975 Introduction to Cognitive Neuroscience (fall only)

Laboratory – Choose one course (see General Catalog for options)

Neuroscience Electives – Choose four courses, 12 s.h. (see General Catalog for options)
The Neuroscience BS provides students with a rigorous and broad background in neuroscience, from the cellular and molecular levels to the behavioral and cognitive levels. Students earning a degree in neuroscience will be well-prepared to pursue graduate work in neuroscience or related life sciences, to attend medical school, or to enter other health-related programs such as physician’s assistant, public health, or nursing. Graduates also will be prepared to directly enter the workforce in biotechnology industries, academic life science laboratories, science education, and science writing.

This major requires a minimum of 120 sh, including at least 63 sh of work for the major.

Students must complete the College of Liberal Arts & Sciences General Education Program.

Students who major in Neuroscience may not earn a major in Biology or Psychology, but may earn a minor in Biology and/or Psychology, as long as no more than 3 sh are double-counted.

There is no minor in Neuroscience.

**Advising**

Up to 29 sh, students advised at Academic Advising Center
At 30 sh, students advised by the departmental Neuroscience major advisor

**Departmental Neuroscience major advisor:**
Pamela A. Wilhoite, MSW
Academic Advisor
142 Biology Building
319-467-4488
pamela-wilhoite@uiowa.edu

**Honors Advisor for the Neuroscience major:**
Ryan LaLumiere
Associate Professor, Psychological & Brain Sciences department
G60 PBSB
(319) 335-3657
ryan-lalumiere@uiowa.edu
