HOW EACH COLLEGE/PROGRAM IS ADDRESSING P/N GRADING OPTIONS

**Undergraduate Colleges**

- P grades in prerequisite courses required for admission will be accepted by the Colleges of Education, Engineering, Nursing, Pharmacy, Public Health, and the Tippie College of Business. The Accounting Program will also accept P grades, both as pre-requisites for subsequent courses and for admission to the Program.

- **College of Liberal Arts and Sciences:**
  - **Actuarial Science** – Due to many universities offering or requiring a pass/fail score on spring courses, the Joint CAS/CIA/SOA VEE Administration Committee is temporarily accepting for VEE credit a pass/satisfactory mark or a grade of C or better on transcripts for the Spring and Summer 2020 semesters only. While the standard VEE policy accepts a passing score on a pass/fail course if the candidate’s professor can provide a letter that a B- or better was earned, we will not require that letter for the Spring and Summer 2020 courses.
  - **Music Therapy** – requires grades in pre-requisite courses
  - **Social Work** – P grades will be accepted for SSW:1022 Social Justice & Social Welfare in the U.S. when students apply to the major
  - **Therapeutic Rec** – P will be accepted

**Graduate Programs**

- **Athletic Training** - Strongly prefers traditional grades in pre-requisite courses. Applicants need have a C or better grade in their courses and overall GPA is a big factor in admission decisions.

- **Child Life** - P grades will be accepted in prerequisite courses required for admission, but not in departmental courses required for major.

**Professional Colleges**

- **Carver College of Medicine** - Prefers traditional grades in pre-requisites. Applicants should contact Carver if they do not receive letter grades for prerequisite courses so they can review these on a case-by-case basis. Online lab courses WILL meet pre-requisites.

- **College of Dentistry** - Requires traditional grades in pre-requisites. If the applicant’s institution has mandated that all coursework change to pass/fail or pass/non-pass due to Covid-19 then transcripts must be annotated with that mandate.

- **Physical Therapy** - Prefers traditional grades in pre-requisites but will accept a P/F grade for the spring 2020 semester.

- **Physician Assistant** - Prefers traditional grades in pre-requisites. If the applicant’s institution has mandated that all coursework change to pass/fail or pass/non-pass due to Covid-19 then the program will review these on a case-by-case basis.

Schedule an appointment with your Academic Advisor in MyUI to discuss P/N grading.
